

Our Story

Green Meadows Farm opened during 1964 in Waterford, Wisconsin for school children to learn about farm animals.

In 1987, the Keyes family brought its animal learning experience from Wisconsin to our present home in Floral Park, New York.

Since then, Green Meadows Farm has been teaching school children in New York, Connecticut and New Jersey about the wonders of our farm.

Over the years, hundreds of teachers have said that they need to hold a fundraiser for their school to go on a field trip.

We have heard your request and have developed our simple club to satisfy this need.

Our popcorn comes from the hard working farmers and the fields of Wisconsin and Indiana. You will experience the quality of these farms through the taste of our popcorn!
